PROFILE

I am Tamim, a budding Web developer. Passionate and well dedicated to work on web projects and very eager to learn new stuffs.

Best of my skills are PHP programming language and Laravel framework. Also good at HTML5, CSS3, Bootstrap, jQuery, AJAX and MySQL etc.

PROFESIONAL TRAININGS

- Web-Design & Frontend** 2023 - 2024
Create completely responsive and user friendly websites using, HTML5, CSS3, JavaScript, Bootstrap and jQuery plus WordPress development under DBDO (West Boxnagar, Sarulia, Demra)
- Full stack development** 2023 - 2024
Handling backend with PHP programming language and MySQL database management, Full-stack development using popular PHP framework Laravel and server management.

WORK EXPERIENCE

- Developer Bangladesh IT | Demra, Dhaka** 2024 - Present
Junior Web Developer
 - **POS & Inventory Management System.** A comprehensive Point of Sale (POS) and Inventory Management System built with the Laravel framework. This software streamlines sales processes, efficiently manages inventory, and tracks profit-loss to help businesses optimize operations.
 - **Transportation Management System.** A PHP-based Transportation Management System designed to track trips, manage customer and driver transactions, and enhance overall logistics efficiency.
 - **Laravel E-Commerce Website for Grocery Stores.** An E-Commerce platform built with Laravel, specifically designed for grocery stores. It provides a smooth shopping experience with features like product categorization, order management, and a secure checkout system.
